Connect to the Internet

It's simple. When you turn your phone on for the first time (with the SIM card inserted), it should connect automatically to your mobile operator's data service.

Note If presented with a list of mobile operators, make sure to select the correct one for your SIM card. Contact your mobile operator for more details.

If you want to connect to the Internet using Wi-Fi, you can:

1. Press ≡ from the Home screen, and then tap Settings > Wireless & networks.

2. Select the Wi-Fi check box to turn Wi-Fi on.

3. Tap Wi-Fi settings. Then choose a Wi-Fi network to connect to.

   If you select an open network, you'll be automatically connected. If you select a secured network, enter the key, and then tap Connect.

Fast browsing

Browse online catalogues or watch videos from your favorite sites. With support for Adobe® Flash® and HTML5, you can view content-rich sites and not miss a piece of information. From the Home screen, tap ⊞ > Internet.

Capture big moments

Use your phone's 5-megapixel camera to take photos in any condition or situation. Whether taking an action shot in the field, a portrait of a friend, or a photo of that romantic dinner, take crisp, clear pictures every time.

From the Home screen, tap ⊞ > Camera or Camcorder.

Just tap Mode > Front and take your own closeup shots. Tap Mode > Video and start recording a video.

Portraits

Taking a group picture? HTC Rhyme recognizes faces and adjusts the focus to capture those smiles clearly.

Skin texture in portrait shots appears smoother. On the viewfinder, tap Scenes > Portrait.
Action shots

Is your subject a moving target? Your phone can keep up. Use the camera to take continuous shots.

On the viewfinder, tap Scenes > Action burst.

Movies wherever you are

With our HTC Watch™ online video service, get a glimpse of the latest movie trailers and enjoy watching Hollywood blockbusters or TV shows. You can choose to either rent or buy videos, and start watching a video as it's being downloaded.

Tap ⊞ > Watch, sign up for your account, and start shopping.

Note: Initially, you may be able to watch movie trailers only. Rental and purchasing services will gradually be available worldwide. Please stay tuned.
Email

If you signed into your Google Account when you first set up your phone, you'll be able to send and receive Gmail messages. From the Home screen, just tap ⊞ > Gmail.

Use the Mail app to set up and manage your other email accounts such as POP3, IMAP, or Exchange ActiveSync.

1. From the Home screen, tap ⊞ > Mail.

2. On the Choose a mail provider screen, tap Other (POP3/IMAP).

   If you don't see this screen, press MENU, and then tap More > New account > Other (POP3/IMAP).

3. Enter the Email address and Password for your email account.

4. Follow the onscreen instructions to finish setting up your email account.

In the Mail app, you can check your email messages just in one place without having to switch to different accounts. Just choose the All accounts inbox. Email messages are color coded so you can easily distinguish which email accounts they belong to.

Thoughtful reminder

Ever missed a call or message because your phone was buried deep inside your bag? HTC Rhyme Charm discreetly calls your attention and not everybody else's. It glows when you receive a call, message, or voicemail.

Connect the cord of HTC Rhyme Charm to the 3.5 mm headset jack of your phone and dangle HTC Rhyme Charm from your bag.

To set options for HTC Rhyme Charm, just press ≡ from the Home screen, and then tap Settings. Tap Charm and choose when you want HTC Rhyme Charm to notify you.

Note: In some regions, this accessory may not be included in the box. Contact your service provider or retail store for details on purchasing this and other accessories.

Dock your phone

Coming home after a stressful day? Dock your phone and wind down by listening to music or viewing your photos. The battery is also being charged while the phone is docked.

When in Dock Mode, your phone turns into a desk clock, photo slideshow viewer, or music player. When you receive a call, the dock becomes a speaker phone so you can take your call hands free.

1. With the dock plugged in, place your phone into the dock. Make sure that the dock contacts on the phone and on the dock are aligned.

2. Press it gently to secure it in place.

2. Choose if you want to play music, view photos, or even check the time and weather.

If it's time to go, simply remove your phone from the dock.

Note: In some regions, this accessory may not be included in the box. Contact your service provider or retail store for details on purchasing this and other accessories.

Quick guide

For the complete user guide and other helpful resources, go to www.htc.com/support. Please also read the Safety and regulatory guide that's included in the box.

Before you do anything else, please read this

Charge the battery

The battery in your phone hasn't been charged yet. Please use the supplied power adapter to do a full charge before you start using your phone. Also, please don't try to take your phone apart. (If you do, it may invalidate your warranty.)

Choose a rate plan wisely

Your phone can use up a lot of Internet bandwidth really quickly. Before you use your phone, we strongly recommend that you talk to your mobile operator about data rates.

Using data services while roaming will be costly. Check with your mobile operator for data roaming rates before you use data roaming.

Know about privacy laws

Some countries have strict laws about how and when you can record phone conversations. It's a good idea to find out what the laws are where you live before you use your phone's recording feature.

And finally, a few important words from our legal team (LIMITATION OF DAMAGES)

To the maximum extent permitted by applicable law, in no event shall HTC or its affiliates be liable to you, any user, or third party for any indirect, special, consequential, incidental or punitive damages of any kind, arising in contract, tort, or otherwise, including, but not limited to, injury, loss of revenue, loss of goodwill, loss of business opportunity, loss of data, and/or loss of profits, regardless of the foreseeability thereof or whether HTC or its affiliates have been advised of the possibility of such damages. And in no event shall the total liability of HTC or its affiliates exceed the amount received from you, regardless of the legal theory under which the cause of action is brought. The foregoing does not affect any statutory rights which may not be disclaimed.

Get to know your phone

- 3.5mm headset jack
- Front camera
- POWER
- Earpiece
- Notification LED
- Touch screen
- Volume control
- Micro USB connector
- HOME
- Microphone
- MENU BACK SEARCH

Before you turn on your phone

Get everything in order before you press the POWER button.
Removing the back cover

1. Securely hold your phone with the front facing down.
2. With your thumbs, push the back cover out to unlock it.

Inserting your SIM card

With the cover removed, insert the SIM card (with its gold contacts facing down and cut-off corner facing out) all the way into the SIM card slot.

Where's the storage card?

There's already a microSD card in your phone, which is on the right side.

- Push the microSD card in to eject and remove it.
- To reinsert, push it in until it clicks into place.

Replacing the back cover

1. Align the teeth underneath the back cover with the notches on the side of the phone.
2. Press down on the back cover with your thumbs, and then push it until it locks into place.

Charging the battery

Flip open the small cap on the left side of the phone to access the Micro USB connector. Use the supplied power adapter and USB cable to charge your phone.

Set up your phone

The first time you switch on your phone, you'll be guided to transfer contacts using Bluetooth, set up your email and social network accounts, and more.

Be sure to sign in to your Google® Account so you can use Google apps like Gmail™ on your phone.

Your Home screen

Almost anything you want is only a swipe and a tap away on your Home screen.

You have up to seven Home screen panels. Simply swipe left or right to go to the other screens.

Removing a Home screen panel
Simply press and hold the Home screen panel you want to remove and then drag it to [icon].

Adding a Home screen panel
1. Press [icon] twice or pinch the screen to go to Leap view.
2. If there is space to add a new screen, tap [icon] to add one.

A new Home screen is added and you can fill it with widgets, shortcuts, and apps.

Reflect your style on your phone

Make your phone look and sound just the way you want it.

Personalize your phone

Customize your phone just the way you want it. You can change the wallpaper, skin, widgets, apps, or shortcuts. You can also choose a sound set that uses different ringtones and notification sounds.

You can personalize the lock screen, too, and add the things you want to see at a glance on an idle screen, such as your photos or live weather updates in your current location.
From the Home screen, press [icon], tap **Personalize**, and then choose what you want to customize.

Adding widgets

Want to bring more widgets to the fore?
1. Scroll to a Home screen that has space for a widget.
2. Press [icon], and then tap **Personalize**.
3. On the Add to home tab, tap **Widget**.
4. Select a widget to add to your Home screen.

Lock screen

When your phone becomes idle, it turns the display off and goes to sleep mode to save battery power.

Simply press POWER to turn the display back on. Pull the ring upward to unlock the screen.

It's also just as easy to open an app, answer a call, or dismiss an alarm from the Lock screen. Just drag the correct icon towards the ring.

Make a call

1. On the Home screen, tap [icon].
2. Enter the number or contact you want to call, and then tap **Call**.
3. To hang up, tap **End call**.

Send a txt msg

1. From the Home screen, tap [icon] > **Messages**.
2. On the All messages screen, tap [icon].
3. Enter the recipient in the **To** field.
4. Tap "Add text", and then enter your message.
5. When done, tap **Send**.

Keep in contact

It's simple and easy to add new contacts to your phone.

1. From the Home screen, tap [icon] > **People**.
2. Tap [icon].
3. Enter the contact information in the relevant fields.
4. Tap **Save**.

Check the complete user guide to learn how to transfer contacts from an old phone or how to sync contacts with your e-mail and social networking accounts.
