Keep in contact

There are several ways you can add contacts to your phone.

Adding a new contact
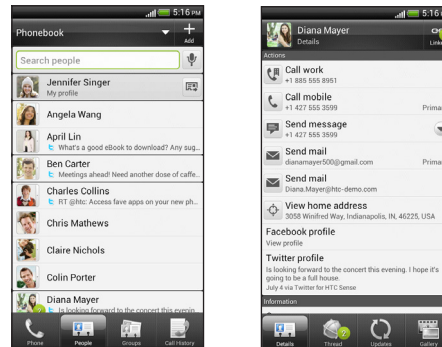

1. From the Home screen, tap [icon] > **People**.
2. Tap [icon].
3. Enter the contact information in the relevant fields.
4. Tap **Save**.

Importing contacts from your SIM card

In the People app, press [icon], and then tap **Import/Export > Import from SIM card**.

Syncing contacts from your online accounts

You can sync your phone with contacts in your Google Account, Facebook, and even Exchange ActiveSync account. See the complete user guide to see how it's done.

Capture your big moments

Use your phone's 8 megapixel camera with dual flash to take high resolution photos. The camera even captures videos in full HD with stereo audio recording.
From the Home screen, tap [icon] > **Camera** or **Camcorder**.

To switch to the front camera, just tap **Mode** > **Front** and take your own closeup shots.

Check out the complete user guide for more details.

Watch movies on the go

With our HTC Watch™ online video service, get a glimpse of the latest movie trailers and enjoy watching Hollywood blockbusters or TV shows. You can choose to either rent or buy videos, and start watching a video as it's being downloaded.

Tap [icon] > **Watch**, sign up for your account, and start shopping.

Note The HTC Watch service may not be available in some regions.

Listen to your fave tunes
Enjoy music wherever you are. From the Home screen, tap [icon] > **Music**.

Plug in the Beats™ headphones that came with your phone. Stylish and compact, the Beats headphones bring added listening pleasure. With studio quality music presets from Beats on your phone, your music collection sounds its best.

Connect to the Internet

It's simple. When you turn your phone on for the first time (with the SIM card inserted), it should connect automatically to your mobile operator's data service.

Note If presented with a list of mobile operators, make sure to select the correct one for your SIM card. Contact your mobile operator for more details.

If you want to connect to the Internet using Wi-Fi®:

1. From the Home screen, press [icon], and then tap **Settings**.
2. Tap the Wi-Fi **off/on** switch to turn it on.
3. Tap **Wi-Fi**. Then choose a Wi-Fi network to connect to.

If you select an open network, you'll be automatically connected. If you select a secured network, enter the key, and then tap **Connect**.

Fast browsing

Enjoy fast web browsing or watch videos from your favorite sites. From the Home screen, tap [icon] > **Internet**.
Email

If you signed into your Google Account when you first set up your phone, you'll be able to send and receive Gmail messages. From the Home screen, just tap [icon] > **Gmail**.

Use the Mail app to set up and manage your other email accounts such as POP3, IMAP, or Exchange ActiveSync.

1. From the Home screen, tap [icon] > **Mail**.
2. On the Choose a mail provider screen, tap **Other (POP3/IMAP)**.

   If you don't see this screen, tap [icon], and then tap **New account > Other (POP3/IMAP)**.
3. Enter the email address and password for your email account.
4. Follow the onscreen instructions to finish setting up your email account.
In the Mail app, you can check your email messages just in one place without having to switch to different accounts. Just choose the **All accounts** inbox. Email messages are color coded so you can easily distinguish which email accounts they belong to.

Get HTC Sync

Use HTC Sync to sync contacts, calendar, and other info between your computer and your phone.

Go to our support website (www.htc.com/support) to download the latest HTC Sync software for your phone and install it on your computer.

Battery saving tips

Turning off wireless functions manually

You can turn off wireless functions such as Wi-Fi, mobile network, and Bluetooth on-the-fly when not in use.

1. Drag your finger from the top of the screen down to open the Notifications panel.
2. Tap **Quick Settings**.
3. Tap the **off/on** switches of the wireless functions you want to turn off.

   To turn Wi-Fi off, tap [icon] next to **Wi-Fi connection**, and then tap the **off/on** switch.

For the complete user guide and other helpful resources, go to www.htc.com/support.

Before you do anything else, please read this

Charge the battery

The battery in your phone hasn't been charged yet. While your phone is charging, it's important that you do not remove the battery pack. Doing so can damage your phone. Also, please don't try to take your phone apart. (If you do, it may invalidate your warranty.)

Choose a rate plan wisely

Your phone can use up a lot of Internet bandwidth really quickly. Before you use your phone, we strongly recommend that you talk to your mobile operator about data rates.

Using data services while roaming will be costly. Check with your mobile operator for data roaming rates before you use data roaming.

Know about privacy laws

Some countries have strict laws about how and when you can record phone conversations. It's a good idea to find out what the laws are where you live before you use your phone's recording feature.

And finally, a few important words from our legal team (LIMITATION OF DAMAGES)

To the maximum extent permitted by applicable law, in no event shall HTC or its affiliates be liable to you, any user, or third party for any indirect, special, consequential, incidental or punitive damages of any kind, arising in contract, tort, or otherwise, including, but not limited to, injury, loss of revenue, loss of goodwill, loss of business opportunity, loss of data, and/or loss of profits, regardless of the foreseeability thereof or whether HTC or its affiliates have been advised of the possibility of such damages. And in no event shall the total liability of HTC or its affiliates exceed the amount received from you, regardless of the legal theory under which the cause of action is brought. The foregoing does not affect any statutory rights which may not be disclaimed.

Before you turn on your phone

Get everything in order before you press the POWER button.

Removing the thin film from the battery

1. Securely hold the phone facing up, and then press and hold the RELEASE button at the bottom of the phone.
2. Slightly lift the bottom part of the front panel, and then gently pull your phone out of its back cover.

3. Peel off the thin film of the battery that's inside your phone. Pull the flap of the film to release the battery.

Inserting your SIM card

Insert the SIM card (with its gold contacts facing down and cut-off corner facing out) all the way into the SIM card slot.
Where's the storage card?

There's already a microSD card in the storage card slot which is right beside the SIM card slot. Push the microSD card in to eject and remove it. To reinsert, push it in until it clicks into place.

Inserting the battery

1. Insert the battery (with its exposed copper contacts first) into the battery compartment.

2. With the exposed side of the back cover facing up, insert the top part of the phone into the back cover.
3. Press the phone down to lock the cover into place.

Charging the battery

Use the supplied power adapter and USB cable to charge your phone.

Set up your phone

The first time you switch on your phone, you'll be guided to transfer contacts using Bluetooth, set up your email and social network accounts, and more.

Be sure to sign in to your Google Account so you can use Google apps like Gmail™ on your phone.

Your Home screen

You have up to seven Home screen panels. Simply swipe left or right to go to the other panels.

You can also pinch the Home screen to see all panels as thumbnails in Leap view. Simply tap a thumbnail to go to a panel.

Removing a Home screen panel

While in Leap view, press and hold the Home screen panel you want to remove, and then drag it to the Remove button.

Adding a Home screen panel

If there is space to add a new panel, tap the Add Panel button while in Leap view.

Personalize your phone

Customize your phone just the way you want it. Just press and hold on an empty space on your Home screen, and then choose what you want to customize.

You can:

- Change the wallpaper or skin.
- Add widgets, apps, and shortcuts to your Home screen.
- Change your ringtone, notification sounds, and alarm sound.
- Choose what appears on your lock screen, such as your photos or live weather updates.

Personalizing the launch bar

You can replace the apps on the launch bar of your Home screen with other apps that you often use.

1. Drag the app that you want to replace out of the launch bar.

2. Tap to go to the All apps screen.
3. Press and hold an app that you want, and then drag it to the empty slot on the launch bar.

Note The shortcuts you see on the lock screen are the same apps as the ones on the launch bar.

Grouping apps into a folder

Use folders to group apps on the launch bar or your Home screen to free up space so you can add more apps.

1. Drag an app over to another app to automatically create a folder.
2. Drag more apps that you want to group in the folder.

Lock screen

When your phone becomes idle, it turns the display off and goes to sleep mode to save battery power.

Press POWER to turn the display back on, and then pull the ring upward to unlock the screen.

It's also just as easy to open an app, answer a call, or dismiss an alarm from the lock screen. Just drag the corresponding icon towards the ring.

Make your first call

1. On the Home screen, tap
2. Enter the number or contact you want to call, and then tap Call.
3. To hang up, tap End call.

Send a txt msg

1. From the Home screen, tap > Messages.
2. On the All messages screen, tap
3. Enter the recipient in the To field.
4. Tap "Add text", and then enter your message.
5. When done, tap Send.
