Wii Menu Update

Please note that when first loading the disc into the Wii console, the console will check if you have the latest version of the **Wii Menu**, and if necessary a **Wii System Update Confirmation Screen** will appear. Select OK to proceed with the update. Updates can take several minutes and may add Channels to the **Wii Menu**. Please note that the Wii console must have the latest version of the **Wii Menu** in order to play the disc.

NOTE: If, after performing an update, the Disc Channel still does not display the title of the inserted disc, a second update is required. Please repeat the above procedure.

Channels added by a **Wii Menu** update will be saved to the Wii System Memory if there is enough free space. These additional Channels can be deleted from the **Data Management Screen** in Wii Options, and can subsequently be re-downloaded from the Wii Shop Channel at no extra cost.

When the **Wii Menu** is updated, unauthorised hardware and/or software modifications may be detected and unauthorised content may be removed causing the immediate or delayed inoperability of your console. Failure to accept the update may render this game, and future games, unplayable. Please note that Nintendo cannot guarantee that unauthorised software or accessories will continue to function with the Wii console after this or future updates of the **Wii Menu**.
