WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. **IMMEDIATELY DISCONTINUE** use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- eye or muscle twitches
- disorientation
- any involuntary movement
- altered vision
- loss of awareness
- seizures
- or convulsion.

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
 - Avoid large screen televisions. Use the smallest television screen available.
 - Avoid prolonged use of the PlayStation®3 system. Take a 15-minute break during each hour of play.
 - Avoid playing when you are tired or need sleep.
-

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

NOTICE:

Use caution when using the DUALSHOCK®3 wireless controller motion sensor function. When using the DUALSHOCK®3 wireless controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS3™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS3™ system while using the controller.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PS3™ system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PS3™ FORMAT DISC:

• Do not bend it, crush it or submerge it in liquids. • Do not leave it in direct sunlight or near a radiator or other source of heat. • Be sure to take an occasional rest break during extended play. • Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

PlayStation®3 system

Starting a game: Before use, carefully read the instructions supplied with the PS3™ computer entertainment system. The documentation contains information on setting up and using your system as well as important safety information.

Check that the MAIN POWER switch (located on the system rear) is turned on. Insert the Call of Duty®: Modern Warfare® 3 disc with the label facing up into the disc slot. Select the icon for the software title under [Game] in the PS3™ system's home menu, and then press the  button. Refer to this manual for information on using the software.

Quitting a game: During gameplay, press and hold down the PS button on the wireless controller for at least 2 seconds. Then select "Quit Game" from the screen that is displayed.

Hint To remove a disc, touch the eject button after quitting the game.

Trophies: Earn, compare and share trophies that you earn by making specific in-game accomplishments. Trophies access requires a PlayStation®Network account.

Saved data for PS3™ format software

Saved data for PS3™ format software is saved on the system's hard disk. The data is displayed under "Saved Game Utility" in the Game menu.

GAME CONTROLS

MAIN MENU

Choose between the Story, Special Ops and Multiplayer Call of Duty®: Modern Warfare® 3 experience, as well as view your completion percentages for each mode.

CAMPAIGN

Pick up where Call of Duty®: Modern Warfare® 2 ended and continue the single player experience in the Call of Duty: Modern Warfare 3 campaign. From the Story menu you can resume your most recent campaign or start a new one. You may also use the Mission Select option to replay an already completed mission at any difficulty.

Note: Modern Warfare® 3 uses an automatic checkpoint save system to save your game progress. You may also choose to use the Save and Quit option from the in-game Pause menu.

SPECIAL OPS

Experience co-op Special Ops play with another player locally in Split-Screen or remotely online. Use the find match option to link up with a player online or through private match to link up with a friend. Choose the solo option to test your skills on your own.

MISSIONS

Take on a variety of custom-designed challenging missions in Special Ops Missions mode. You can also use this menu to revisit any unlocked Special Ops missions and attempt to complete it on one of three difficulties.

SURVIVAL

Survive countless waves of enemies on Multiplayer maps, utilizing available resources to climb the Special Ops ranks. Revisit maps to break your previous wave record.

MULTIPLAYER

Compete with other Modern Warfare 3 players online and locally in a variety of maps and game modes in Multiplayer (MP). Unlock new weapons, attachments, perks and rank up in MP!

HEADS-UP DISPLAY

1. **Stance Indicator** – Indicates whether you are standing, crouching or prone.
2. **Inventory** – Displays devices and/or weapon attachments that are currently available.
3. **Grenade Indicator** – Icon warning you that there is a grenade nearby, arrow indicates the location of the grenade.
4. **Damage Indicator** – Red marker shows that you are taking damage and the direction the damage is coming from. (See Health System, on page 6)
5. **Use Icon** – This only appears when you are near a weapon or interactive object, indicates what button to press to interact with the weapon or object.
6. **Ammo Count** – Shows remaining bullets for currently equipped weapon, as well as remaining grenade supplies.
7. **Match Info** – Displays current score, team icon and time remaining in match. (MP Only)
8. **Mini-Map** – Shows map of local area plus locations of friendlies and known hostiles.
9. **Crosshair** – Indicates where you are currently pointing your weapon. Turns red when positioned over an enemy, green when positioned over a friendly. Walking or running causes the crosshair to grow wider or sometimes disappear altogether, indicating a loss of accuracy. Stopping movement, crouching and going prone increase accuracy.*
10. **Pointstreak Inventory** – Indicates how many points you need to acquire the next Pointstreak. Any acquired Pointstreak can be used in the Pointstreak Inventory by pressing up or down on the D-Pad to cycle through them and pressing right on the D-Pad to equip the item.

*Note: When you press the ADS button, you will aim down the sights or scope of your weapon. This will greatly increase your accuracy and decrease your movement speed. While in ADS the crosshair will disappear.

HEALTH SYSTEM

When you take damage from enemy fire, blood splatter will appear and the damage indicator will show you the direction the fire is coming from. If you can find cover and avoid enemy fire you will eventually recover and be able to continue at full strength.

PAUSE/OBJECTIVES SCREEN

Press the  button any time in Campaign or Special Ops to pause the game and access this menu. From here you may access game Options (described below), restart the current level, revert to your last checkpoint, lower the difficulty of the game if the mission is too hard, or save and quit to the Main Menu.

MULTIPLAYER OBJECTIVES SCREEN

Modern Warfare®3 cannot be paused while playing in MP mode. Pressing  in MP will bring up a menu that will allow you to choose a new class (taking effect on your next spawn), view the description of your current game mode, and access the Options menu. Keep in mind that the MP match is still active in the background when you are in this screen.

OPTIONS

You may access the Options menu from the main menus or in-game via the Pause/Objectives Screen and MP Objectives Screen. In this menu you can choose different control schemes, or adjust various game settings such as control sensitivity or look inversion.

STATS

In the Story and Special Ops main menus you may access the Stats option to view statistics for each mode, such as play time and completion percentage. In Multiplayer various statistics are available via the Barracks section.
