⚠ WARNING: PHOTOSENSITIVITY/EPILEPSY/SEIZURES

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- eye or muscle twitches
- disorientation
- any involuntary movement
- altered vision
- loss of awareness
- seizures
- or convulsion.

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PlayStation®3 system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

NOTICE:

Use caution when using the DUALSHOCK®3 wireless controller motion sensor function. When using the DUALSHOCK®3 wireless controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS3™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS3™ system while using the controller.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PS3™ system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PS3™ FORMAT DISC:

- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

CHARACTER CUSTOMIZATION

THE NEW CHARACTER CUSTOMIZER ALLOWS YOU TO BUILD YOUR OWN AUTOBOT OR DECEPTICON, AS WELL AS DEFINE THE WEAPONS AND ABILITIES YOUR CHARACTER HAS.

OPTIONS

ARMOR: The armor section allows you to change to multiple categories of parts such as the chest, arms and legs. The chest piece will also determine the vehicle form you turn into. If you prefer, you can also choose from the many prefabricated characters via the "Armor Set" option.

LOADOUTS: The loadouts section allows you to customize your primary and secondary weapons, as well as weapon upgrades and abilities.

PERSONALITY: The personality section allows you to change your character's colors, voice, and name. These options are influenced by the faction you choose.

CLASSES

THERE ARE FOUR CLASSES TO CHOOSE FROM:

INFILTRATOR: The Infiltrators are the smallest and fastest class. They rely on hit-and-run tactics to take on much larger foes due to their lighter armor. As the only class with the cloak ability, they are masters of stealth.

DESTROYER: The Destroyer is the most well-rounded class. Their heavier armor and less-nimble truck forms can take a beating while dishing out support for their teammates and firepower against their enemies. Their special ability is a Diffraction Barrier which makes them formidable on the battlefield.

TITAN: Built for destruction, Titans are deadly at almost any range. Heavy tank cannons blast opponents from afar while specialized weapons chew through armor up close. They aren't the quickest on the battlefield, but Titans don't need to run from a fight.

SCIENTIST: While their large size makes them a hefty target, the airborne maneuverability of their vehicle form allows them to pick and choose their fights better than any other class. Scientists specialize in the ability to heal others from their wounds in battle.
