NiMH rechargeable battery pack

Power adapter

Telephone line cord

User's guide

Quick start guide

In multihandset packs, you will find one or more additional handsets, chargers with power adapter units, additional rechargeable battery packs and battery doors.
IMPORTANT
Only use the telephone line cord supplied.
This equipment is not designed for making emergency telephone calls when the power fails. Alternative arrangements should be made for access to emergency services.

❶ Getting started

Step 1. Connect the base

- Plug the power adapter with smaller pin plug & telephone line cord into the base. Power adapter with bigger pin plug is for charger (for multi-pack only).
- Plug the other end of the power adapter & telephone line cord into the wall jack.

TIPS
Do not place your phone in the bathroom or other humid areas. Please refer to the user's guide for more cautions when you choose the location of your phone.

IMPORTANT
Only use the power adapter and telephone line cord supplied with the product.

Step 2. Install and charge the handset battery pack

- Slide out the battery compartment cover. Place the supplied rechargeable battery pack in the battery compartment, with the battery connector plugged in, as shown.
- Slide the battery compartment cover back.
- Put the handset on the base to charge for at least 24 hours. When the handset is fully charged the 🔋 will indicate that it is fully charged.

IMPORTANT
Use only the rechargeable battery pack provided.

Step 3. Set the display language

- Press ⌨ and 😊 to select **SETUP HS**.
- Press ⌨ and 😊 to select **LANGUAGE**.
- Press ⌨ and 😊 to select the language.
- Press ⌨ to save.

Step 4. Set date and time

- Press ⌨ to select **DATE & TIME**.
- Press ⌨ and edit the year and date.

TIPS
You can press 😊 to move between the input fields **YEAR** and **DATE**.
- Press ⌨ and edit the time in 12hr format. Press 😊 to toggle **AM/PM** settings.
- Press ⌨ to save the settings.

NOTE
If you have subscribed to your network's Caller ID service, the date and time is set automatically for all handsets every time a call is received.

Step 5. Your phone is now ready for use.

Handset LCD Display

Display icons

Icon	Description
☏	On when the line is in use. Flashes when there is an incoming call.
◁ᴇ	On when speakerphone is turned on.

Paging/Find handset

- Press ⓕⁱⁿᵈ on the base. All handsets registered to the base will ring.
- To stop the paging, press ⓕⁱⁿᵈ again, or press 📞/📞/📞 on the handset, or place the handset on the cradle.

For L40x series only

Switch the answering machine on / off

Press ⌨ at the base to step between answering machine modes. When the base is switched on the display shows *00* (or other number) when in Announce and Record mode, *An* when in Announce Only mode, and *--* when in Answer Off mode.

Listen to messages

Press the keys below on the base to perform the respective functions:

⏯ : Press to stop playing messages or resume playback.

⏮ : Press once to replay current message from the beginning. Press twice to playback the previous message.

⏭ : Press to play the next message.

✕ : Press to delete the current message.

🔊 : Increase the loudspeaker volume by one level (0 to 8).

🔉 : Decrease the loudspeaker volume by one level (0 to 8).

NOTE
Ringer will be off when the volume is decreased to level 0.

❸ Help

For more solutions, see the full Help section in the user's guide.

The 🔋 icon is not scrolling when the handset is placed on the base
- Bad battery contact – move the handset slightly
- Dirty contact – clean the battery contact with a cloth moistened with alcohol
- Battery is full – no need to charge

No dial tone
- No base power - check the connections. Reset the phone: unplug and plug back in the electrical outlet.
- Handset batteries are empty - charge the battery pack for at least 24 hours.
- Handset may be too far from the base - move closer to the base.
- Wrong telephone line cord - use the telephone line cord provided.

Poor audio quality
- The base is too close to electrical appliances, reinforced concrete walls or metal doorframes - move the base away from any electrical appliances.

No ring tone
- The ring tone is deactivated.
- Increase the volume.

Caller ID does not work
- Check your subscription with your network operator.

A phonebook entry cannot be stored
- The phonebook is full. Delete an entry to free memory.

No display
- Try recharging or replacing the battery pack.
- Reset the base. Unplug the unit's electrical power, then plug it back in.
- If LED is not lit up, then try to unplug the unit's electrical power, then plug it back in.

When the handset lost its link with the base during a call
- Check the power cord is connected properly into the base.
- Check the power adapter is connected properly into an electrical outlet.
- Move the handset closer to the base. It may be out of range.
- Reset the base by unplugging the unit's electrical power. Wait for around 15 seconds and plug it back in again. Allow up to one minute for the handset and the base to synchronize.

Noise interference on your radio or television
- Your base or charger may be too close. Move it as far away as possible.

Need more help?
- For a full explanation of all features and instructions, please refer to the user's guide.
